

# Please move cars from parking lot by 10AM on mornings when it has snowed 2 or more inches

---

The snowplow will try to be done with the lot by 2PM.

If you park in the area between the front lawn and the street, the town may tow you.

Do not park between the parking lot and the dumpster area as this interferes with snow storage / trash removal.

Improperly parked cars and/or cars not registered with the board secretary may be towed. **Owners** are responsible for registering their tenants.
